Recensione SoftonicNetflix è una piattaforma di film e serie TV in streaming, che offre i migliori contenuti multimediali sia su browser web, sia con apposita app per Android, iOS, e Smart TV. Per accedere a Netflix occorre sottoscrivere un abbonamento che ti permette di vedere film e serie TV senza interruzioni pubblicitarie. La fama di Netflix è legata soprattutto alla serie TV che produce, diventate veri e propri cult: dalla Casa di Carta a Stranger Things, passando per Narcos, el Chapo e Squid Games, e questo solo per citarne qualcuna. È possibile avere Netflix gratis? Quando sbarcò in Italia, qualche anno fa, Netflix prevedeva un periodo gratuito di 30 giorni per incentivare gli utenti a sottoscrivere gli abbonamenti. Rispetto ad allora, però, le cose oggi sono molto diverse: non è possibile avere in alcun modo Netflix gratuito, nemmeno come periodo di prova. Al massimo, si può sottoscrivere l'abbonamento per un solo mese, e poi disattivare il rinnovo qualora i contenuti non siano di tuo gradimento. Come si sottoscrive l'abbonamento a Netflix? La procedura di sottoscrizione di abbonamento Netflix è semplice e intuitiva: basta scaricare l'app, inserire mail e password, scegliere il metodo di pagamento e l'account viene creato in pochi secondi. Esistono tre distinti abbonamenti per Netflix: Base, Standard e Premium, che si differenziano sostanzialmente dal numero di dispositivi che possono godere dei contenuti in contemporanea. Quali sono i servizi streaming alternativi a Netflix? Le piattaforme che forniscono contenuti in streaming sono ormai tantissime, ma le principali concorrenti di Netflix sono Infinity e Disney+. Guardando il listino prezzi, questi due competitor sono sicuramente più economici, ma di contro Netflix può offrire un catalogo nettamente più ampio. Quanti device contemporaneamente possono usare lo stesso account Netflix? Gli abbonamenti Netflix sono già di per sé economici, ma la possibilità di condividere con amici e parenti l'account potrebbe rendere la spesa ancora più bassa. L'abbonamento Base prevede un solo device, quello Standard supporta la condivisione fra due dispositivi, mentre quello Premium può arrivare fino a 4 visioni in contemporanea. L'abbonamento Premium è particolarmente indicato per i nuclei familiari. Come pagare Netflix? Oltre ai metodi tradizionali legati alle carte di credito e debito, Netflix supporta anche il pagamento via PayPal. Inoltre, qualora tu non voglia legare i dati del tuo conto personale all'account Netflix, puoi anche scegliere di pagare con una ricarica da fare dal tabaccaio, proprio come faresti per il tuo numero mobile. Sono disponibili anche card regalo. Senza eguali? Senza girarci troppo intorno, a oggi Netflix è per distacco la miglior piattaforma di contenuti multimediali che possiamo vantare qui in Italia. Recensione SoftonicTwitch Studio è un software progettato dagli sviluppatori dell'omonima piattaforma di streaming online. L'obiettivo di questo programma, ancora in versione beta, è rendere più semplice l'attività degli streamer, evitando l'utilizzo di software di terze parti, come XSplit e Streamlabs. Una via semplificata ancora per pochi eletti? Quest'app ha un layout semplice e intuitivo: è facile capire come caricare i proprio video in diretta. La configurazione guidata fornisce istruzioni chiare anche agli utenti meno esperti, mentre gli strumenti di interazione con la community sono molteplici. Trattandosi di un software in fase beta, le limitazioni di Twitch Studio sono ancora molte: non tutti gli streamer possono accedervi, è disponibile solo per PC Windows e non sono previste versioni per MacOS o device mobili. Le stesse funzioni legate allo streaming, inoltre, sono ancora prive di alcune peculiarità. Alla ricerca di uno streaming sempre più semplice? Nonostante le attuali lacune, i continui aggiornamenti degli sviluppatori stanno rendendo Twitch Studio un software sempre più performante. Facile e intuitiva Configurazione guidata Ottima interazione con la community Non occorrono software di terze parti Software ancora in versione beta Disponibile solo per PC Windows Non accessibile a tutti gli streamer Mancano alcune funzioni extra In this article, I have provided the top

working Applinked codes for you to try on your streaming device. The Firestick 4K, Firestick Lite, and Fire TV Cube are just some of the Amazon TV devices with which these codes will work.They also will work with other Android devices, including Android TV boxes, Chromecast, and smartphones.4554, 3333, 5555, 7777, 4444, and many other codes on this list are the best Applinked codes available.Millions of cord-cutters used FileLinked on their Amazon Fire TV devices and Android TV boxes, making it one of the Best Firestick Apps at the time.Since many people are searching for an easier way to install apps via codes on their smartphones and tablets since FileLinked is no longer working, one of the most recent and best FileLinked clones is Applinked.Applinked is a good substitute for FileLinked; it's a repository that provides access to numerous streaming apps for movies, TV shows, and more, and allows Firestick users to download apps on Amazon Fire TV devices or Android TV boxes. After installing Applinked, to download an APK (Android app installation file) you will need to first enter a store code, then select from the store's app list the application you're looking for, simple as that.Many cord-cutters have previously accessed and installed streaming APKs, modded apps, maintenance apps, and much more using various FileLinked codes.With the top Applinked Codes, you can install a variety of apps and more - including streaming free movies and TV shows with your Fire TV Stick.Users will be able to sideload a huge number of applications not seen in the Amazon App Store or Google Play Store after Applinked is installed.With Applinked codes, users can install popular apps like Kodi, Cinema APK, Aptoide (Google Play Alternative), ES File Explorer, Stremio, MX Player, and more.Since the Applinked app does not host any services or applications, downloading and installing well-known streaming apps and tools requires the best Applinked codes for your device.However, in order to assess whether using Applinked codes is safe, we scanned the official Applinked APK file for viruses and malware.The most recent findings from the Kaspersky Threat Intelligence Portal indicated that the Applinked APK was found to contain threats, including malware.10 Best Applinked Codes for Movies & TV ShowsIn this section, I have provided a list of some of the best Applinked codes you may use to get great apps for smart TVs. Since we're dealing with third-party apps, it would be a good idea to turn on your VPN before installing any apps to stay safe online.1. Applinked Code 4554This is the best Applinked code, as it provides you with a large variety of apps. You can have all kinds of apps: live TV, sports, movies, TV shows, launchers, and other utility apps. It gives you not only quantity but also quality. We should remind you that, without a VPN, all your online activity can easily be traced back to you.With a good VPN service, your IP address and online activities are kept private. NordVPN can help you keep your privacy while streaming all the content you want, it is easy and simple to install, and compatible with all streaming apps around. We do not condone the unauthorized streaming of any copyrighted content. All we want is for you to protect yourself from getting into trouble in case you access unauthorized content.How to Install NordVPN on Firestick to Stream AnonymouslyHere's the step-by-step guide on how to get NordVPN to stay safe when streaming.Step 1: Subscribe to the VPN service. NordVPN offers you a 30-day money-back guarantee. Subscribe to NordVPN HERE.Step 2: Once your device is on, go to the Search function.Step 3: Type and choose NordVPN.Step 4: Tap 'download' and wait for the NordVPN to get installed.Step 5: Open the app and sign in.Step 6: Choose your location or click on Quick Connect. That's all! BEST VPNWhat Is Applinked?Like FileLinked, the Applinked app allows you to download any streaming app with a code. After installing Applinked, all you have to do is input a code, choose an app from the list, and download the APK (Android app installation file) for the chosen app.You can then stream your favorite movies, TV shows, live TV channels, kids channels, adult content, music, and much more through a number of great apps by simply using the best Applinked codes from this list.Are Applinked Codes Legal?Yes, using Applinked codes to install apps and access freely available movies and TV series is legal. Applinked is safe in itself, but it also allows you to download a ton of third-party apps, some of which can be rife with malicious threats.If you want to stream movies online by using Applinked Codes, I strongly advise using a secure VPN service to protect yourself from hacks and surveillance and to hide your streaming activities.Do You Need a VPN to Use Applinked Codes?While Applinked codes will work without a VPN, we recommend that you use a VPN every time you download and install third-party apps to protect yourself from hidden threats and to remain anonymous online.What Happens If You Are Caught Using Unverified Apps Through Applinked Stores?Using Applinked store codes for the purposes of illegal streaming can result in legal challenges. That is why it is always best to use a reliable VPN service if you intend to stream online.That's it! These are our picks for the best Applinked codes of 2022. They're all tested, error-free and safe to use. Now have fun with your streaming.
